

*Have a joy-filled  
Christmas!  
from InnerVisions HealthCare*

## Dear Friends of InnerVisions,

Hello, my name is Alesha. I had recently left an abusive relationship when I found out I was pregnant. As a struggling, single mom of two, I thought abortion was my only option.

After hearing a radio ad for InnerVisions, I decided to stop in. Their welcome put me at ease. After receiving an ultrasound, the nurses helped me understand all my options. The information was empowering, but I still struggled with my “need” for an abortion. I even made an appointment for the abortion. While sitting in the waiting room at the abortion clinic, I googled “abortion procedure”. I began to cry. All I could think about was the ultrasound picture of the baby that I received at InnerVisions, so I left.

I returned to IVHCare for a follow-up ultrasound and was surprised to see how much the baby had grown in a short period of time. I was humbled by the clinic’s support, encouragement, and resources they made available to me: a donated car, furniture, financial support, gift cards to help with groceries and gas. What meant the most to me was when they told me that I was not alone anymore. They meant it. The staff and nurses at InnerVisions became my strongest support system. The more often I visited, the more empowered I became. I found the confidence to choose life for my son.

Micah is now 4 months old and one of my greatest joys. I want to thank InnerVisions for empowering me through some of my most difficult life challenges.

I hope my story inspires you to make a generous Christmas gift to InnerVisions, so they can continue supporting women like me who are facing a time of loneliness and fear. I know how their patients feel—and these women need your help this holiday season!

Thank you so much!

*Alesha*

P.S. Could you please consider making a special Christmas gift to the clinic to help other women like me in similar situations?
