

2025 SUMMER WISH LIST

High Level Disinfectant (\$1,000)

To ensure the highest level of care for our patients and staff, we recently upgraded the disinfectant we use to clean our ultrasound transducers. Our previous solution raised safety concerns due to potential carcinogenic risks. We've now switched to a safer, more efficient high-level disinfectant. While it has a higher upfront cost, it will actually save the clinic money over time—costing about \$1,000 a year. This reflects our striving for excellence in care for both our patients and our staff. Would you consider underwriting that cost for one year?

TikTok Marketing (\$1,000)

TikTok is one of the most powerful platforms for reaching abortion-determined women before they step into an abortion clinic. With over 1 billion active users, it's where women are already searching for answers. Our marketing firm uses strategic ads to advertise IVHCare's important services on TikTok in order to engage potential patients and convert qualified leads. A gift of \$1,000 ensures that our campaign can effectively connect with 50,000 young people monthly.

Good Samaritan Fund (\$500)

Since 2011, InnerVisions HealthCare has supported pregnant women facing crises like abuse, job loss, or mental illness. Many feel like abortion is their only option, but with donor support, over 2,370 have chosen life. This wish list item covers urgent needs, but it's running low. We aim to replenish our Good Samaritan Fund, allowing staff to offer immediate assistance when women arrive in crisis; can you help with this urgent need?

Postage (rolls of stamps for \$78)

The summer time is usually when we start running low on postage stamps, and so, we could use a few generous souls to bring a roll or two to the clinic. Or you can make a one-time gift to cover a roll (or two!) [here](#).

VISA Gift Cards for APR (denominations of \$50)

When an Abortion Pill Reversal (APR) patient comes in, they need a prescription to reverse the effects of the chemical abortion. We like to give these patients \$50 VISA gift cards so that they can get their prescription from the pharmacy and not have cost be an issue. [Can we get 25 gift cards in \\$50 increments](#) to cover progesterone treatments through a patient's first trimester?

General Gift Cards (denominations of \$25)

In order to assist patients with other requests, an arsenal of gift cards is really helpful. Gift cards for gas, groceries, general stores (Walmart, Target, etc.) and food places (like Subway) are really helpful for us, and you'd be surprised how those can help an abortion-minded mother change her mind. [Can we get 30 gift cards in \\$25 increments?](#)

Size 4, 5 & 6 Diapers

Some of our abortion-minded patients have other children in diapers and comment that finances are a barrier to them continuing the pregnancy. These larger sizes help us to support the patient with other children's needs. Would you consider bringing some of these larger size diapers into one of the clinics?
