

FOR IMMEDIATE RELEASE – WEST DES MOINES, IOWA  
March 9, 2026

### **IVHCare Successfully Completes National Site Visit**

InnerVisions HealthCare (IVHCare) is pleased to announce the successful completion of a comprehensive two-day site visit conducted by Focus on the Family, a nationally recognized organization serving families across the United States.

As a result of the visit, IVHCare has been officially approved to participate in Focus on the Family's Ultrasound Grant Program – an achievement that reflects the organization's commitment to medical excellence, ethical standards, compassionate care, and operational integrity.

The site visit included an in-depth review of clinical protocols, medical policies, leadership structure, financial accountability, staff training, and client care practices. Approval through this process signifies that IVHCare meets rigorous national standards required to receive grant funding for ultrasound services.

“We are honored to be recognized through this approval,” said Lorelee Chase, Executive Director. “This site visit affirmed the professionalism of our entire staff, the strength of our governance, and our unwavering commitment to serving women and families with excellence and compassion.”

The Ultrasound Grant Program helps expand access to life-affirming medical services by providing funding for ultrasound equipment and training. Research has consistently shown that access to ultrasound services plays a critical role in empowering women to make informed decisions about their pregnancies.

Participation in this national program positions IVHCare among a select group of clinics/centers across the country that have demonstrated high standards of care and organizational effectiveness. “This milestone represents the dedication of our staff, board of directors, volunteers, and supporters,” added Chase. “We are grateful for the opportunity to partner with a nationally respected organization to strengthen the services we provide in our community.”

Helping Families Thrive in Christ™

**Focus on the Family** is a U.S.-based Christian nonprofit organization dedicated to strengthening families and supporting life-affirming ministries. Founded in 1977, the organization provides educational resources, counseling support, advocacy initiatives, and grant partnerships to organizations that align with its mission. Focus on the Family partners with pregnancy medical clinics and community-based ministries nationwide, offering financial support and conducting structured evaluations to ensure clinical integrity, organizational accountability, and mission alignment.
