Last year pushed us to the limits. And yet, with your help, InnerVisions saw a 27% increase in pregnancy patients and ended the year in a strong financial position. We're so grateful for your support when we needed it the most, and we plan on making 2021—the clinic's 10 year anniversary!—our best year ever, especially as we implement a new 15-step patient process so that every pregnancy patient receives the best and most accurate medical information available to address her unplanned pregnancy. In 2021, we're striving for "excellence"!

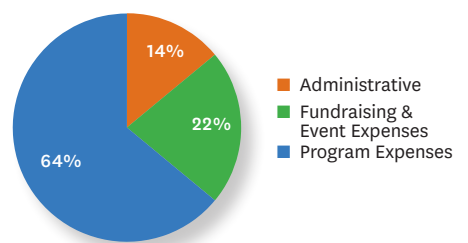

With humble gratitude, Theresa Welch, *Executive Director*
