Another banner year for our free, multisite medical clinic! Thanks to you and many generous supporters, we had record attendance (and funding!) at our annual summer gala, but none of that is important if it doesn’t rescue lives from the tragedy of abortion. In 2021, we rolled out a new patient process, and our nurses served the most at-risk pregnant patients we’ve ever seen—it was a 176% increase over the previous year! We look forward to 2022, where we’ll continue to hone our craft, and become better at *Educating, Empowering, and Encouraging* our abortion-minded and abortion-determined patients to making life-affirming choices. With humble gratitude, Theresa Welch, *Executive Director*
